

Staburo GmbH is a data science company, specialized in statistical consulting, programming and bioinformatics for healthcare projects. Our core competencies include Clinical Statistics, Translational Medicine & Biomarkers, Phase I & Pharmacokinetics/-Dynamics, Data Transparency & Disclosure Services, Health Technology Assessment and Bioinformatics. Our customers are international pharmaceutical companies (7 of the top 20), CROs, biotech companies and medical device manufacturers. Our steadily growing team of 57 experts supports our clients efficiently from study design to data analysis and finally the disclosing and posting of trial results.

To expand our team in Munich, we are looking for a

Data Scientist with focus on HTA (f/m/d)

Your responsibilities will include:

- Supporting Health Technology Assessment (HTA) teams in all steps of the processes (e.g. AMNOG), by providing statistical input
- Involvement in dossier development and review of IQWiG and GBA
- Interaction with IQWiG and GBA for written statement and oral hearing
- Planning and performing statistical analyses of clinical study data according to HTA requirements; presentation of the results
- Creation of statistical analysis plans for dossiers
- Point of contact for statistical programming

Your profile:

- University degree in statistics, mathematics, or comparable studies or PhD
- More than 2 years of professional experience as a statistician with responsibility for clinical studies
- Fluent German in both oral and written, very good English skills
- Very good methodological knowledge in the field of clinical statistics
- Experience in HTA (e.g. AMNOG process) and specific methods (e.g. indirect comparisons, MAIC, meta-analysis, use of real-world evidence) are an advantage
- Very good IT skills, especially with statistical analysis tools (SAS, R)
- Quick comprehension and analytical thinking
- Ability to work in a team and a high level of initiative

What we offer you:

We value communication, flat hierarchies, open corporate culture, and a harmonious work environment. We offer comprehensive individual development opportunities, continuous trainings, and flexible working hours. A modern and bright office with a delicious, subsidised canteen, as well as the opportunity to work 2 days per week from home are part of our everyday working life. Full remote work from anywhere in Germany for those who do not live in Munich can be arranged. You will join an interdisciplinary team allowing you to discuss with and learn from peers with many different backgrounds.
